

MISSISSIPPI FIRE CHIEF'S ASSOCIATION

POLICY STATEMENT

AUTOMATIC SPRINKLERS

It is the policy of the Mississippi Fire Chief's Association to encourage the use of automatic fire sprinklers in all residential structures, especially those of a multi family nature, hotels, motels, condominiums, dormitories and fraternity and sorority houses.

The Association encourages its members to become educated on the merits of automatic sprinklers and have available to the general public, when asked, information to assist persons in making sound decisions concerning the installation of fire sprinklers.
